Regulatory Contact: James Hindman
Phone: 303-692-3345

Agency: CDPHE

Purpose of Contact: EXTEND CLOSURE SCHEDULE FOR TANK 207

Discussion

James and I discussed extending the closure date for Tank 207 in light of the fact that recent samples taken indicated extremely high content for Pu. This was unexpected and the tank was subsequently labeled as a potential criticality infraction pending further investigation. Based on the information obtained during the investigation, additional steps will need to be taken to ensure closure is conducted safely and compliantly. It was agreed that the schedule be extended for closure to the end of this calendar year.
